Subject: ASAP -- follow-up on EPA's comments

Hi Sandy,

I had a chance to speak with Jill Nogi (NEPA unit manager) regarding potential follow up conversations on EPA's comments on the ASAP SDEIS. So, here are a few thoughts for your consideration.

Regarding the October 6 Cooperating Agency meeting, Jill will be available to participate by phone (if you are planning to provide a phone line) in the event I am unable to attend in person.

However, we are still interested in scheduling a separate conversation between our two agencies in follow-up to EPA's comment letter, to discuss our concerns and any questions you may have regarding EPA's comments and recommendations. It turns out that Jill will actually be in Anchorage for a brief time next week, and I realize that you are also planning to be at the Federal Building on Thursday for the Section 106 meeting. Would you by any chance be interested in meeting with us from 8-9 am before your larger meeting begins? We could also potentially meet in person Wednesday afternoon. If these times do not work, we could schedule a phone meeting instead at another time.

Thank you,

Molly
